REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance. This office action is in response to amendment filed on 02/01/06. The prior art made of record in the attached form PTO-892 considered to be pertinent to the submitted application.
2. Yanashima et al. US # 2002/0140309 disclosed an induction motor used in hermetic electric compressor that is provided with claimed motor structure, starting capacitor, a positive temperature coefficient thermistor connected in series with the auxiliary winding and the starting capacitor. Yanashima et al. also teaches switching elements to control operation of auxiliary winding of the synchronous induction motor. However, provided in Yanashima et al. control circuit interlocks would not meet claimed functions due to different electrical connection between claimed limitations.

The submitted application is allowed based on amendment and additional search provided by the examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
